The 5 guesthouses are traditional African style Rondavels. Carefully situated, creating a lot of privacy, each Rondavel offers a double bedroom and a fully equipped bathroom. The large windows and double glass doors create a spectacular view from the bedrooms, overlooking the slopes of Maanzoni. On the horizon you will see Mount Lukenya in the west, Mount Kenya in the north and to the east you can see the hills where the local Akamba people live. The private veranda with safari chairs allows you to enjoy your stay at Amazing Kenya Retreat even more. The Rondavels have been constructed in such a way that it looks like they are emerging from the ground. This effect has been created by tilting the roof to the back, in combination with the slope of the land they have been build on.
