

The Kola Beach Resort is situated at mambrui along the spectacular beaches of the Kenyan golden beach. This deserted and immense beach is bathed by the Indian ocean and from which it owns its name by the numberless mineral particles it contains on which when the sun shines on confers to the golden effect it has. The resort is inserted in a tropical garden of palms and buganville characterized by an exceptional fusion and the elegance of the African world a distinct contemporaneous European style.

Here you admire the fantastic sunset on the tropical forest, the fascinating dawn on the ocean and the brilliant view of the moon which shines on you through the palms accompanied by the natural relaxing music. A location capable of transmitting the glamour and magic vibrations of Africa.
