

**Entumoto Private Safari Camp** stands elevated in the hills of the Megwarra escarpment, commanding breathtaking views and sunsets over the Mara plains. We are part of the Siana conservancy, on the border of the Masai Mara reserve, between the park gates Oloolaimutia and Sekenani.

The sheer beauty of the experience, waking up in the early African morning, the sound of the birds calling, dew sparkling on the grass and the typical smell of woodsmoke on the air cleanses your very soul. After the often spectacular sunset, night falls and the sky, free from light pollution, shines with the starlight of millions of visible stars and the Milky Way.

You will experience this in a way you'll never forget.

### **Accommodation**

The tents, made of a multilayered canvas, are custom designed and set a hundred meters apart from each other for your privacy. [www.crocodileracers.com](http://www.crocodileracers.com)

The camp offers 4 family tented suites, comprising two double or twin rooms, each with en-suite bathrooms and a central lounge with fireplace, comfortably furnished including two divans which could double as beds – in all, ideal for a family, although four adults and four children could be comfortably accommodated.

It also offers 5 double or twin tents, bathroom en-suite, perfect for couples.

Each tent has its own wide verandah on which, for instance, you can enjoy your early morning cup of tea or coffee, your relaxing afternoon upon the daybeds or your evening sundowners.

Children are welcome. Trained rangers enjoy showing them the bush. Four out of the nine

rooms are family rooms, plus they have the rare pleasure of a swimming pool to keep themselves entertained.

Our minimum age policy for children is 7 years. Children over 12 years old are considered adult.

Check-in/Check-Out Time Check in: 11am / Check out 11am.

### Dining

Breakfast is a delicious range of fruits and cereals. You may then order a cooked English breakfast of your choosing either in camp or out under a lone thorn-tree on the savanna plains. Lunch a light affair – perfect for the heat of the day. It consists of various salads, meats and deliciously cooked potatoes or other starch. Pudding is simply mouthwatering and consists of delicacies such as Banoffee pie or chocolate cake. Dinner is the most special meal of the day especially if you have the bush dinner that is held in the sacred Masai meeting place at the base of an enormous rock. It is made up of a delicious starter – along the lines of mango and black forest ham, then a delicious main, either something from the barbeque or a range of various dishes ranging from curries to roast chicken. Dessert is again exquisite, such as brandy snaps and chocolate mousse appearing before you. As Entumoto grows many of its own fruits and vegetables they are extremely organically minded and diet conscious – thus they can do individual dishes for each of their guests according to dietary requirements.

### Features

- Bar and Lounge
- Cooking -for those interested
