

Villas Diani

Nature has been generous with Kenya, giving it one of the most fascinating landscapes of Africa. Its coasts, kilometers of coral beaches, are shaded by palm trees and casuarina trees, whose branches are curiously swinging small monkeys and funny baboons. In the vast savannahs yellow sun, small villages made of straw and clay are sprouting here and there, and the passage of jeeps comes alive for children in celebration.

TAJ RIVIERA HOUSE and the others six charming villas, same standard and same services, could be your luxury houses, offering everything you need from a vacation.
