

Ol Pejeta Bush Camp is a traditional tented safari camp, set on the banks of the Ewaso Nyiro River in 110,000-acre Ol Pejeta Conservancy, which lies on the Laikipia plains 17 km from Nanyuki and 217 km from Nairobi. Nanyuki Airstrip is a 40 minutes drive from the camp. Just 3½ hours drive from Nairobi; Ol Pejeta Bush Camp is as the name suggests a real 'bush camp' where you can expect comfortable but basic tented accommodation (with the luxury of an en-suite bathroom), delicious food and great company. Ol Pejeta Bush Camp has 6 tents with twin beds, accommodating a total of 12 guests. The camp can be booked exclusively for a family or group of 4 or more for a small supplement per night. Further temporary tents can be added for larger groups if necessary.

Ol Pejeta Bush Camp gives a unique safari experience, described by guests as 'the real Africa', offering interactive conservation activities, whereby guests are given the opportunity to experience modern wildlife conservation first-hand. Likewise, for those seeking a nature retreat and wishing to distance themselves from a busy schedule, rest, relaxation and independence are all equally encouraged.

Ol Pejeta Bush Camp offers an interesting range of educational and interactive activities in addition to bush walks and day and night game drives. Guests can meet with the researchers based at Ol Pejeta and monitor elephant and track rhino and lion on foot or you can spend some time in the hide at the waterhole to see what turns up.

Ol Pejeta Bush Camp also offers the opportunity for sleep outs in the bush beside the water hole where all equipment including night vision monocular is included. Ol Pejeta is East Africa's biggest Rhino Sanctuary offering the chance to see the now very rare and endangered animals. There is also a Chimpanzee Sanctuary within the Conservancy, originally started by the renowned expert Jane Goodall and home to over 50 rescued chimps. Ol Pejeta Bush Camp also makes a good base for those wishing to climb Mount Kenya.

Private Charter flights can easily land into an airstrip in Olpejeta Wildlife Conservancy called Kamok.
