

Sagana Getaway Resort Kenya is a stepping stone to the Mount Kenya region. The resort will also have full security and the residents will live in a gated community.

Sagana Getaway Resort Kenya will be part-owned and operated by the operators of the highly successful Lukenya Getaway and both resorts will share the same marketing team. There is no reasonably priced conference facility in this region and only an hour from Nairobi. The serene ambience, high end conference facilities and beautifully designed cottages will ensure that Sagana Getaway is destined to become a very popular location. www.crocodileracers.com
