

Tsavo Buffalo Camp is situated on the edge of the Tsavo East National Park, which measures 22,000 sq.km. It is the largest park in Kenya and one of the most extensive in the world. Both camps face directly onto the banks of the River Galana and offer guests the opportunity of a holiday which reflects the pace of life on the Savanna, an existence in close contact with the wild animals. The wake-up call is at dawn; then breakfast and immediate departure for the first safari to watch the big cats. In the early morning, these animals return to their base from hunting and are easily detected by Man. www.crocodileracers.com

Tsavo Buffalo Camp has an informal restaurant, a bar, a relaxation zone where guests can languish and observe the animals that come to the river to drink.

There are ten bungalows, furnished in a simple and highly-functional style; they are arranged around the huge bonfire at the center and each bungalow has a bed complete with mosquito net and a private bathroom.
