

Finch Hattons lies at the heart of Tsavo West National Park, part of Kenya's single largest game reserve. The camp surrounds a natural freshwater spring flowing through three crystal clear pools, with tents along the water edge. The camp is easily accessed from Mtito Andei Gate on the Nairobi-Mombasa highway or via the camp's airstrip 5 minutes drive to the camp.

The Camp accommodates up to 50 people in spacious safari tents attractively constructed in light beige canvas with large windows, wooden flooring and a permanent thatched roof. All have en-suite bathrooms, large mirrors, WC, hot and cold running water and showers and are equipped with a fully stocked mini bar, shaver outlets for 110v and 200v and hairdryers. www.rocodileracers.com
