

**Ocean Sports Resort** is situated on Watamu Beach, a Marine Park protected by the Kenya Wildlife Service. Watamu is a small fishing village south of Malindi town on Kenya's North coast. It has about 20 km's of beaches, of which 6 are in the Watamu Marine National Park.

**Ocean Sports Resort Watamu** is 120 Kilometers North of Mombasa and 28 Kilometers South of Malindi. At Gede, which is on the main Mombasa Malindi road, you turn towards the Indian Ocean. 11 Kilometers from the main road is Watamu itself. [www.crocodileracers.com](http://www.crocodileracers.com)

The Watamu beach road is about 10kms from North to South where it ends at the mouth of Mida Creek. The name "Watamu" means "sweet people" in Swahili. The name came from the fact that Arab slave traders used to distribute sweets to entice the local population before taking them as slaves.

**Ocean Sports Resort** in Watamu is a quiet beach resort with some lovely, deserted (or near-deserted) white sandy beaches. Snorkeling is one of the major attractions for anyone wishing to witness the amazing diversity and colorful underwater life. It is also a centre for bird watching, with Mida Creek and the Arabuko Sokoke Forest on the doorstep

Why visit Watamu and stay at Ocean Sports Resort? Avoid the hyped commercialism of other beaches in Kenya and get away from it all on one of the last unspoiled stretches of Kenyan beach resort and spend hours Snorkeling, walking on the beach and just lazing away the holidays. It really is beautiful!
